

Quality Cabinet Straighteners For Coil Processing

FORMIT STRAIGHTENERS / LEVELLERS FOR YOUR COIL PROCESSING REQUIREMENTS

As well as being leaders in the rollforming market, Formit also offer a full range of cabinet straighteners.

Sold individually or as part of a production line, Formit is a name you can trust to meet your production needs. Contact the FORMIT sales office today for an immediate response to your needs.

If you have custom requirements Formit can design bespoke equipment to fulfil your requirements whatever that may be.

FORMIT also offer a repair & refurbishment service for all machines and have engineers on standby for emergency breakdowns. Contact the FORMIT service department to discuss your requirements.
