

## Special Purpose Perforator For the Production of Window Lintels

### **FORMIT SPECIAL PURPOSE PERFORATOR FOR WINDOW LINTELS**

As well as being leaders in the rollforming market. Formit also offer special purpose machines.

This machine is a specially designed for the rolled production of window lintels, rolling the perforations into the material in a continuous process.

It was designed such that can withstand the rigours of perforating 3.3mm high tensile material utilising a 190mm hardened steel tooling shaft as well as specialist tool steels for the perforation tooling.

### **ELECTRICAL CONTROLS**

Controls for the machine are housed in appropriate panel enclosures at the rear of the line, with the main control desk situated at the front of the line.

Wiring between machines and enclosures will be via in-floor trunking.
