FROM START TO FINISH

ROLLFORMING TECHNOLOGY

Rollforming the Future® with...
COPRA® Technology

www.formit.co.uk

Software Design

With the use of **COPRA®**, **FORMIT** can design sections, calculate static values, simulate the roll forming process and design the rolls in the most efficient and cost effective way.

Rollforming the **Future®** with...
COPRA® Technology

Stud & Track Rollforming Line.

By utilising the best technology available the element of risk is reduced. **FORMIT** are committed to the customer, from the initial concept to a finished product. As leaders in roll design software **COPRA®** ensures "right first time" with minimum adjustment reducing costs and improving profits.

From design through to installation and after sales service we have trained engineers who can devote themselves to your project. Quality is second to none and all machinery is CE marked or "declaration of incorporation" is included complying with all relevant standards.

Punching

FORMIT can supply all your **Coil Processing** and **Press Feed Equipment**.

"Flying" cut offs can be integrated into the line as well as pre-piercing, bending and welding.

CNC Multi-Punch.

CNC Piercing Unit

Combining servo roll feed, servo pierce station on linear rails to pierce holes anywhere across the material in the X or Y axis and heavy duty hydraulic shear.

Automation

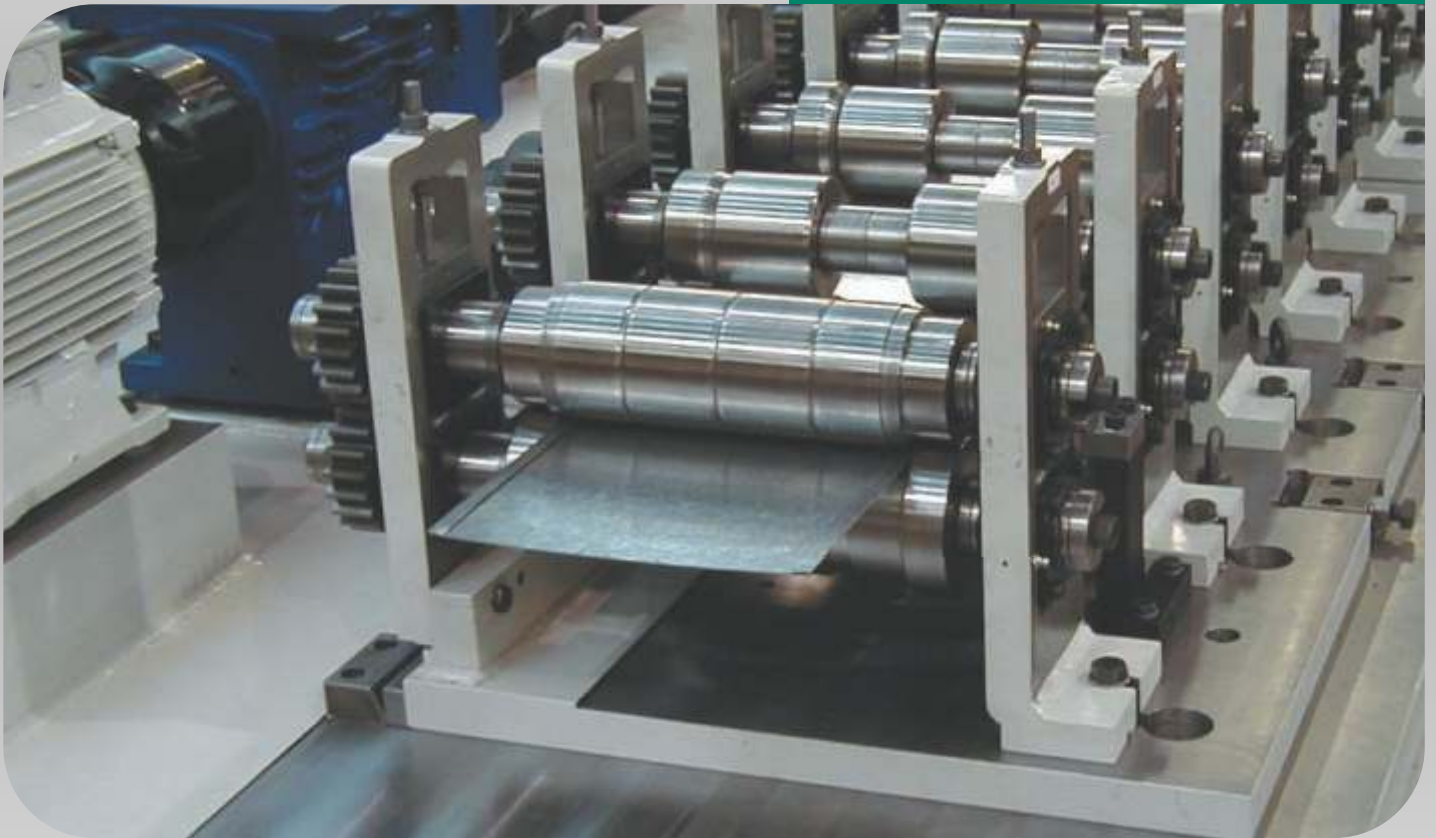

FORMIT are specialists in automation equipment to fully integrate their coil processing or roll forming lines.

Special purpose feeding equipment for water filter manufacture.

Let us provide you with the engineering solution...
from **Start** to **Finish**.

Perforating Unit.

Multi-Stage Progression Tooling.

Rollforming

Palisade Fencing
Production Line.

Servo Controlled Steel Framing Line.

Motorway Crash Barrier
Production Line.

Any size of roll former can be designed and manufactured to suit various materials from 0.4mm - 6mm thick up to 1500mm wide.

Dual Type Rollformer.

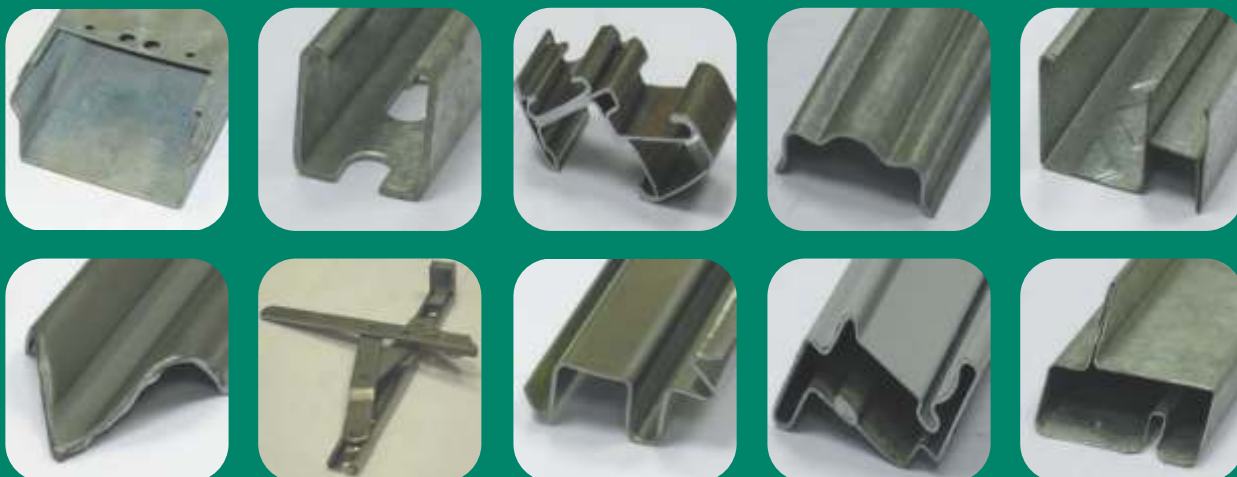

Duplex Rollformer For Cable Tray.

Duplex Rollformer Adjustable For
Width To Produce Cladding.

"I can honestly say I have dealt with many companies and truly would never recommend one as highly as yours, and I would look forward to working with you again."
