

Machine Tool Fitter

West Midlands based, with travel throughout the UK and occasional Overseas Travel

Salary Guide: Negotiable

We are seeking a skilled and experienced Machine Tool Fitter to join a successful, established special purpose machinery manufacturer based in the Cradley Heath, West Midlands.

You will be responsible for the mechanical build of large complex equipment from engineering drawings and hydraulic / pneumatic diagrams. You will also be required to cover site installations, service and repair work both in the UK and occasionally overseas.

Responsibilities:

- Assembly of various precision machined / fabricated components of large complex equipment according to engineering drawings and detailed specifications.
- Collaborate with the engineering team to ensure the successful completion of projects within specified timelines.
- Installation, commissioning, and testing of large complex equipment, both in the UK and occasionally overseas.
- Visit customers premises to undertake service, maintenance and repair work.

Requirements:

- Extensive experience in mechanical production build of large complex equipment from scratch, following engineering drawings and pneumatic diagrams.
- You will have a strong background in fitting motors, gearboxes, bearings, drive shafts, and other related components.
- Experience in installation, commissioning, and testing of large complex equipment.

Desirable:

- Experience with Rollforming machinery and associated Coil Processing equipment.

Qualifications:

- Time served apprenticeship in a relevant field.
- Further qualification with a mechanical-related bias such as C&G / BTEC, etc.

We are looking for a dedicated and self-motivated individual who can work effectively both independently and as part of a team. The successful candidate will have excellent problem-solving skills and the ability to work under pressure to meet project deadlines.

Note: This job description is intended to provide a general overview of the position and does not encompass all responsibilities and duties that may be assigned or required.

Salary Guide: Negotiable

Core Hours: Monday to Thursday 8am - 5pm & Friday 8am - 1pm - 39 hours per week

+ Overtime as and when required.
